

E³ PROGRAM

EPFL EXCELLENCE IN ENGINEERING

The E3 program is an extremely selective initiative: the 2023 edition acceptance rate was lower than 3%. The program offers an intensive research training opportunity to students interested in research careers in any field of engineering, science and technology.

The School of Engineering of EPFL certifies that

**Alireza
Habibzadeh**

has participated to the 2023 edition of the E³ program:
EPFL Excellence in Engineering summer fellowship.

Alireza Habibzadeh completed a research project
hosted by the **Laboratory of Photonics and Quantum Measurements, K-Lab (LPQM)**
led by **Prof. Tobias Kippenberg**.

Prof. Ali H. Sayed
Dean of the School
of Engineering

Prof. Tobias Kippenberg
LPQM Director
